1. This action is in response to the amendment that was received on June 1, 2004.

Claims 1-8 are pending.

2. The following is an examiner's statement of reasons for allowance:

The invention of claim 8 is allowable over the art of record in view of applicant's arguments that Baentsch's teaching of reestablishing the state prior to the power failure by copying or transferring the contents of the non-volatile memory to their original memory locations (RAM and register locations) so that normal operation can be resumed at column 8, lines 14-22 does not correspond to the recited "restarting the process in a waiting state" limitation of claim 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
